Thanks Douglas – I just left a voice mail for Sarah and Andrew. If you can keep them in the loop on the final date/time – that would be great!

Judy: it's a go for Andrew and Sarah if they can/choose to sit in. Holly still needs to confirm the time for this meeting, so I will keep you in the loop going forward.

Ex. 5 Deliberative Process (DP)

Hi Holly: you may recall that Mike Wireman participated in the AE workgroup for our Region as an expert hydro-geologist before he retired back in April (along with Dan Jackson). Both Andrew and/or Sarah would like to serve in a similar capacity by attending our internal meeting at GWPC. Like Mike, they will serve as non-UIC program technical experts to help inform future/more complex AE decisions for Region 8 (e.g. Dewey Burdock uranium ISR in SD).

Any objections if they sit in on our meeting on Sunday, October 5th?

Let me know.

Thanks,

Douglas

Douglas, can Andrew and Sarah sit in as well? Andrew would change his travel to be there for this. I have not spoken to Sarah about this.

Judy: here is the latest on when we may be discussing AE issues during GWPC. It would be an EPA internal meeting and may end up happening on Sunday, Oct. 4th.

Thanks Holly. I have a slight preference for the morning on Sunday, but the afternoon would work as well. I can also meet Monday morning.

Hi all,

I wanted to let you know that GWPC has pushed back on our participation in the 2 hour portion of the AE workgroup meeting. We decided to withdraw our participation there in favor of providing an update on the WDD AE memo at the State-EPA Roundtable (which seemed like was their preference).

We did want to take advantage of the face-to-face opportunity with you all (minus David) to begin discussions on the future issue, as this is already coming up in R8 and more to come sooner than later in R8 and elsewhere.

So wanted to see what your travel plans/availability might be on Sunday or Monday morning (before the opening session) to start putting some markers down on this topic. We can try to patch you in David, if you are available.

Thanks, and looking forward to seeing you,
Holly
